SILVERDALE (NZ)	SOUTH AUSTRALIA	SWAN HILL (Vic)	WERRIBEE (Vic)	

TASMANIAN FIRE SERVICE

Championships in Tasmania are part of a long tradition, dating back to the 1880's. Events at Tasmanian State Championships have been very similar to Victorian and West Australian, with the Hose Reel prominent in their competition programs.

Tasmanian competitors D Beamish and T Cardwell dominated the Ladder Practice Event at the 2003, 2005 and 2007 National Championships, whilst the teams enjoyed success in traditional events such as Hose Cart and Wet Marshall Event at National and now Australasian Championships.

1826 Hand Drawn Manual Fire Pump

Van Diemens Land's (Tasmania's) first firefighting appliance for Hobart Town, on display in Hobart Fire Museum.

This type of appliance was used for many years in NSW Demonstrations in the late 1800's and early 1900's.

Hose Reel

Hose Reel Events have been the main feature at Victorian, West Australian and Tasmanian events for over 100 years, whilst NSW and Queensland have incorporated current equipment and practices as the main events in Championship programs.

NSW last had Hose Reel events in 2006
